Date: 3rd September 2010

Dear Sir/ Madam

Lucia Mullerova was employed as Junior Designer by Bossanova for a period of one month from 12th July until August 13th 2010.

Throughout this period, Lucia was very punctual and hard working. We assigned design briefs to her which she completed to a very high standard and a number of her concepts were chosen by our clients. She is keen to develop her skills which impressed us.

Lucia would be a welcome addition to any design studio and we wish her every success in her future career.

Yours Sincerely

**Steve Smith
Creative Director**

Amsterdam, 16 November 2009

To whom this may Concern,

During the period of 23rd February till the 27th of March 2009 Lucia Mullerova was an intern here at Dutchy Design.

Lucia was a pleasure to work with, during her stay she specialised in graphic and multimedia design. Designing logos, letterhead and websites. Lucia is enthusiastic and works well, quickly understanding the needs of the clients and the best way to communicate these.

Working in a studio was important and a valuable development for Lucia. Quality and time are important, hence Lucia learned to work independently and efficiently within a restricted timeframe.

I believe if Lucia continues to develop and stay as dedicated to her work as she has done in the 5 weeks with us, she will cultivate into a very fruitful and talented graphic designer.

Kind regards,

Thomas Andre de la Porte

Re: Lucia Mullerova

We have worked with Lucia Mullerova in CollaborationIT (www.collaborationit.com) and ProfitIgnition (www.profitignition.com) on a number of projects now, and I am pleased to have this opportunity to vouch for her both professionally and personally.

As well as working on some internal branding work, Lucia worked on brand and website design for two clients of ours. In both cases, Lucia's work was immensely well received by the clients; and with good reason. In one case in particular, Lucia had to push quite hard to move the client from one preconceived concept they had, to a much more powerful & appropriate look. This was done with great courtesy and professionalism however, and the client has been very appreciative of the end result.

Both clients speak highly of Lucia and believe she represented our company very well.

Personally, I find Lucia sparky, creative, fun, intuitive, highly intelligent and visually talented.

I will be happy to respond to any genuine reference requests.

Yours Sincerely,
Sean O'Sullivan

To Whom It May Concern:

Lucia Mullerova of Longstone, Cullen, Co. Tipperary was employed by McKerns as a Graphic Designer from January to September 2006 when she left our employment of her own free will to commence a full time degree course.

During her stay with us, we found Lucia to be very diligent, co-operative, innovative, productive, adaptable and friendly. Any future employer will be fortunate indeed.

Would McKerns re-employ Lucia should the opportunity arise? Definitely!
